## Quality Control Technician

This position is responsible for monitoring and verification of established food safety standards at Pacific Blends Food Safety and Quality Assurance program.

Great opportunity to work in fast growing company with high level GFSI food safety principles.

### **Responsibilities:**

- Conducting Routine Pre-operational QC Inspection
- Being involved in continuous improvement of food safety program
- Sample analysis including organoleptic, physical and chemical
- Assisting in supplier and customer documents compliance
- Routine inspections to ensure SOP's requirements are met in all aspects including Sanitation, Pest Control, Warehousing and Production.

### **Skills;**

- Detail oriented personality
- Be able to prioritize and multi-task
- Strong interpersonal skills
- Able to work independently with no supervision
- Excellent reading, writing, and oral communication skills
- Familiar with HACCP or GFSI standards
- Solid computer skills in Microsoft Office and statistical software
- Strong work ethic and positive team attitude
- College degree in Food Science

### **Work Environment Requirements;**

- Flexible Schedule, ability to work on weekends
- Shifts getting rotated; Morning (7:00 AM to 3:30 PM) and afternoon shifts (3:30 to 12:00 AM)
- Need to regularly stand and walk during Production shifts.
- Must have no allergies to food ingredients or dust atmosphere
- Experience in food industry is an asset

This is an entry level position in our QA department.
